

DID MAN EVOLVE?

I. Evolutionary theory

A. Definitions of concepts.

Evolution in good sense but origin

Also evolution has permeated every area of that.

Psychology, soc, pol science, geo. All started with

B. Life of Darwin

C. Bases of evol.

1. Embryology. Fins, tail. But still human embryo

2. Carbon 14. But only 20,000 yrs and not agreed on

3. Fossils. But circular argument. *Evolution*

D. Problems in evol.

1. Theory. *Not a theory*

2. Not enuf time *not enough time of geological time*

3. Antigod. Race improving so doesn't need God.

II

Theistic evol.

A. Definition

B. Teaching. Evol of species possible. Even man as long as God started.

C. Reason. Yielding to intellectualism of age.

III. Revelational evidence.

A. Nature of it.

1. Not primitive. *God invented language*

2. Not unscientific. *Normal int.*

3. Detailed. More than just that God behind it all.

B. Specifics of it.

1. When day # 1 starts.

2. Relationship of vs 1 and became in v 2.

3. Kind of days.

4. Extended period rather than gap doesn't depend on Satan's falling.

C. Confirmation of it.

Ex 20. Matt 19. Heb 4

Rom 5.

1 Tim 2: 16
