Dear Dr. Ryrie,

I wanted to write you a note this morning to tell how deeply I appreciate your concern, your prayers and your giving in our lives. It is hard for me to believe that it's been 32 years since we met at DTS. The years have gone by so fast, it only seems like a short time since you were visiting us here at the seminary in the Rathenaustraße. How I wish you could come back and see the new building which the Lord has provided for us: the large classrooms, the larger office space. Of course, this makes the working situation at the seminary much easier.

Cleon's illness certainly calls us all to stop and think. We do appreciate your prayers for him during the last six months and also the next six months of treatment with the chemotherapy. When he regains his strength, we plan to take a trip to the States in order for him to see his elderly parents. Perhaps we would be in Dallas for a few days and we would look forward, should your schedule permit, to being able to spend some time with you.

Please accept my thanks for all you mean to us personally, but particularly for your relationship with our son Buddy there in Dallas. I appreciate you taking time out of your schedule and having a relationship with him at this difficult time of our lives. I am sure your ministry has touched the lives of many men over the past 30 years at Dallas. Needless to say, one of these lives has been Cleon's. I do want to thank you from the bottom of my heart for all that you mean to each one of us. We look back with fond memories at our time in Dallas and he often reminds us of some of your classes. We pray for you and ask for God's richest blessings to continue in your ministry.

I remain with very warm personal regards

Gail
